Utility and Energy Transmission & Distribution News ...

There are three types of patents: utility, design, and plant. There are two types of utility and plant patent applications: provisional and nonprovisional. A provisional application is a quick and inexpensive way for inventors to establish a U.S. filing date for their invention, which can be claimed in a later-filed nonprovisional application.

Utility | A branding agency in Albuquerque & Denver

Utility and value, in economics, the determination of the prices of goods and services. Resources can be said to be scarce in both an absolute and in a relative sense: the surface of the Earth is finite, imposing absolute scarcity; but the scarcity that concerns economists is the relative scarcity ...
